

## FIELD TO FOREST OBERON

Only 30 minutes away, Jenolan's nearest neighbour is the small town of Oberon – a special place. The Oberon Plateau is the highest part of the Blue Mountains, so it's cooler in summer and blessed with snow in winter. Deciduous and blossomy trees make a sweet and glorious show in both Autumn and Spring. Mushrooms grow wild in the surrounding pine forests. Cattle and sheep graze the lush green hills where cool-climate grapes also thrive. The main street offers cafes, pubs and shops.

And now, for all of April, the Oberon 'Field to Forest' Festival shines a spotlight on the array of activities in and around the region that make it so unique. **To find out about these fun activities, see [www.visitoberon.com](http://www.visitoberon.com).**

Oberon shares a 185-year history with Jenolan Caves. Here at Chisolm's Restaurant, we source many ingredients from Oberon, such as Oberon Black Angus steak. Throughout April, as part of 'Field to Forest', we offer additional menu choices, below. One bite and you'll understand how lucky we are to be part of the Oberon Region.
